

CONTRACTS MANAGEMENT SOFTWARE

INTRODUCTION

UniPhi allows you to easily track and manage your contracts. With centralized contracts, UniPhi streamlines contract management by making it easy to view and communicate variations, instructions, progress payments and EOT approvals.

This award-winning SaaS project and portfolio software reduces time spent managing individual contracts and boost productivity through transparent communication between all involved team members.

UniPhi covers the end-to-end life cycle of projects and engages with all people working within the built environment. It provides adaptive solutions to complex problems, allowing organizations to stop improvising solutions and start maximizing opportunities.

KEY BENEFITS

- Manage all elements of a contract from one screen.
- Variations linked back to issues.
- Transparency of contract standard, key clauses and current disputes.
- Linked to insurance certificate of currency, supplier performance and SLA results.
- Automated EOTs, RFIs, variations, notice numbers.
- Consistency through customizable contract templates.

CONTRACTS MANAGEMENT SOFTWARE

3 KEY FEATURES

1 TRACK AND MANAGE

Centralized contracts screen that makes it easy to view and communicate variations, instructions and approvals. These variations are all linked back to the correspondence and issue that led to them, allowing for transparency throughout project lifecycles.

2 AUTOMATED

Auto-generated notice numbers, RFIs, variations, progress claims and EOTs, as well as instant contract sum and progress claim valuations automated with no QA risk.

3 INTEGRATED TEMPLATES

Integrated documentation with standard contractual notices in templates and mail merge fields for names, addresses, notice numbers and dates. Consistency is maintained across all contracts due to templates that can be configured per users' requirements.

“ UniPhi has allowed us to apply our existing methodology for Contract Administration in a clear and consistent way to allow our junior architects to step up and gain valuable experience. We have done this without compromising quality for our clients or our contractual obligations. Importantly key approvals stay with me as the Principal Architect without me being a constraint on getting things done. *BY Projects* ”
